The YUCATÁN PENÍNSULA

*W*elcome to the fascinating Peninsula of Yucatán, where the ancient maya civilization, spanish colonial heritage, modern life and natural beauty of the surrounding area, merge in harmony .

Gay travelers are becoming more aware of this “hidden” colonial gem since it offers what we usually look for in good vacation destination: excellent gastronomy, beautiful but affordable restaurants, a whole world of different styles of traditional architecture to admire, but also a modern and progressive city that at the same time takes care of its Spanish

and Mayan heritage.

From natural caves with crystalline water (sinkholes/cenotes), turquoise water beaches, Maya hidden temples, colonial Mexican magic towns to Haciendas (last century country mansions). So much to see in this adventure, but our super hosts are in the know –they’ll have you heading straight for the hottest spots.

OUR TOURS

We believe in tourism as a force for good, capable of changing people's life. Every time we travel, for whatever reason, we are all a part of a global force; a force that has the power to drive inclusive development, create jobs, reduce inequalities and increase awareness in the fragility of our ecosystems.

CHICHEN ITZA

One of the New 7th Wonder of the World. Chichén Itzá, sacred city of the Mayas and declared a World Heritage Site by UNESCO; its temples and palaces have been conserved as a testimony to its wonderful legacy. One of the most imposing and important Mayan cities.

YELLOW CITY | Izamal

To visit Izamal is to visit a city/town that is alive with three cultures – the ancient Maya, the colonial, and the present day bustling Izamal. It is a monument of color, history and pride that can be felt in its streets and buildings. Art, music, and gastronomy are all around you!

WHITE CITY | Mérida

The safest city and one of the most beautiful cities of México. Not only Mérida has the third largest collection of colonial homes in Latin America (just after Havana and Mexico City), it was also one of Mexico's richest cities in the late 19th and early 20th centuries, you will find this evident as you walk around the city.

AFTER DARK

Join us for a fun and complete night in the best company, feel relaxed and safe while enjoying the best and newest spots of Mérida's Night, We will visit 2 cantinas, dinner at The Park at one of the best restaurants, and finishing the night at the best gay disco in town. See what night in Mérida is about!

UXMAL

The city of Uxmal is associated with mystery and legend. It was one of the most important cities in the Mayan World. Being no less majestic and magical than Chichen Itza, the fact Uxmal is less visited by tourists, makes it a much more enticing and awe-inspiring Mayan ruin experience.

CENOTES RING

In Mayan mythology, the cenotes represented a passage to the underworld, or "Xibalba" the kingdom of death. They are natural pools of crystal water created by erosion of limestone that surrounds them. They are connected by the longest underground river network in the world, and they are exclusive environments of the Yucatán Peninsula.

SISAL BEACH DAY

A quiet Mexican town, once the biggest and most important naval port in the region with thousand of historic stories that defined the current state of Yucatán. Only 45 min away from Merida. We highly recommend this not crowded location to refresh and enjoy the beautiful beach.

PINK LAGOON

Walk around the famous Pink Lagoons, a body of saline water where some flamingo colonies live. The extraction of salt in this region of Yucatán dates back to the time of the ancient Maya. Later we will continue the journey to a hidden beach on the eastern Yucatan coast, a very well kept secret!

PINK FLAMINGO | Celestún

Eco-tourist paradise of Yucatán. Its exceptional landscape is part of the world heritage of the special biosphere reserve where the main attraction is the Pink Flamingo. A journey to contemplate the endemic species of the mangrove ecosystem and relax in the turquoise beach of Celestún town.

OFF THE BEATEN PATH EXPERIENCE

On this tour we take you to virtually virgin places, unknown to most tourists. In these destinations you can have a connection with nature, an authentic experience full on birds and mammals, and always following basic rules of sustainable tourism so as not to disturb the fauna or the site itself.

TULUM

This experience is archeology + snorkeling. First we will visit the archaeological ruins of Tulum and then we will take a boat trip from the beach, to the second largest coral reef in the world, where we will swim and snorkel. Here with a little luck you can see everything: corals, fish and even turtles and rays!

COBÁ

Coba is an ancient Mayan city of the Classic period. It has the largest network of sacbe (Mayan roads) in Mesoamerica, which connected this important point for trade with the eastern Mayan coast. Today it is one of the most popular sites in the region and it is allowed to climb the Nohoch Mul pyramid, the largest in the Mayan world (not suitable for weak people) where you can see a magnificent view from the top.

ISLA MUJERES

Ranked as one of the best beaches of the World, the island Isla Mujeres is just a short ferry trip that departs from Cancun. Join us on this fun trip to the island, we will drive gulf cars to explore the cliffed side coast and reach the best spots and views from the Island. Eventually we can relax and have fun at the best beach club at the Island.

CAMPECHE

Still unvisited for most of the travelers, this Colonial fortress beauty remains one of the best kept secrets. Campeche has a strong history bond to pirates and Spaniards. The city is one of the best conserved in Mexico and will take you back in time.

HIDDEN GEMS OF YUCATAN

This trip is thinking for you to discover and stay in the more authentic places with cultural and historic narratives. You will explore stunning and important archaeological sites of the Mayan culture, towns full of Spanish history conserving the grandeur and air of sophisticated elegance from a past time, and natural beauty landscapes only found in this region of the world.

We travel not to escape *life*
but for life not to escape *us*.

TESTIMONIALS

20/24

MICHAEL M.
Palm Springs, USA

"I had the best 10 day vacation in the Yucatan. They listened carefully to the experiences I wanted to have and tailored each day to my request. Riccardo our guide picked us up daily and took care of every whim. We only had to sit back and enjoy the day. His personality is bubbly, warm, friendly all coupled with knowledge of the history of the Mayans and the Yucatan. Half the day we spent laughing which was delightful. I give them five stars plus plus and will go back again for another ten days! I can it recommend them enough."

KRIS McNITE
London, UK

"Absolutely incredible! Ricardo is one of the nicest guys and extremely knowledgeable. He took us off the beaten path to explore so many cool places that we simply would not have discovered on our own. From colonial architecture and Mayan ruins to lush tropical cenotes, gardens and untouched beaches...we went from one oasis to another! It was perfect and I'll never forget it. Thank you so much - keep up the good work."

FRANCIS B.
Miami Beach, USA

"I and a friend just completed a wonderful trip of 5 days to the Yucatán and Tulum with Ricardo of Merida Gay Tours!
This trip would have been impossible without the excellent advice and guidance of Ricardo.
We were primarily focused on wanting to explore the Mayan ruins in the Yucatán..Ricardo was totally flexible in guiding us. If your looking for a guide who is knowledgeable, flexible, wanting to please and fun to be with...I highly recommend Ricardo and Merida Gay Tours!"
